

Request for Information

The TeX Users Group maintains a database and publishes a membership list containing information about the equipment on which members' organizations plan to or have installed TeX, and about the applications for which TeX would be used.

Please answer the questions below, in particular those regarding the status of TeX and the computer(s)/operating system(s) on which it runs or is being installed. (Especially for IBM and VAX, the operating system is more relevant than the model.)

If it has not yet been done for your site, please also answer the questions about output devices on the other side of this form, obtaining information from the most knowledgeable person at your installation if necessary. If this information has already been provided by another TUG member, please indicate that member's name, and the information will be repeated. If you need more space than is provided here, feel free to use additional paper.

If your current listing is correct, you need not answer these questions again. Your cooperation is appreciated.

- Send completed form with remittance (checks, money orders, UNESCO coupons) to:

TeX Users Group
P. O. Box 594
Providence, Rhode Island 02901, U.S.A.

- For foreign bank transfers direct payment to the TeX Users Group, account #002-610871, at:

Rhode Island Hospital Trust National Bank
One Hospital Trust Plaza
Providence, Rhode Island 02903-2449, U.S.A.

- General correspondence about TUG should be addressed to:

TeX Users Group
P. O. Box 9506
Providence, Rhode Island 02940-9506, U.S.A.

Membership List Information

Institution (if not part of address):

Title:

Phone:

Specific applications or reason for interest in TeX:

My installation can offer the following software or technical support to TUG:

Please list high-level TeX users at your site who would not mind being contacted for information; give name, address, and telephone.

Date:

Status of TeX: Under consideration

Being installed

Up and running since

Approximate number of users:

Version of TeX: SAIL

Pascal: TeX82 TeX80

Other (describe)

From whom obtained:

Computer(s) and operating system(s):

Please answer the following questions regarding output devices used with TEX unless this form has already been filled out by someone else at your installation.

Use a separate form for each output device.

Name _____ Institution _____

A. Output device information

Device name

Model

1. Knowledgeable contact at your site
 - Name
 - Telephone
2. Device resolution (dots/inch)
3. Print speed (average feet/minute in graphics mode)
4. Physical size of device (height, width, depth)
5. Purchase price
6. Device type
 - photographic electrostatic
 - impact other (describe)
7. Paper feed tractor feed
 - friction, continuous form
 - friction, sheet feed other (describe)

8. Paper characteristics

- a. Paper type required by device
 - plain electrostatic
 - photographic other (describe)
- b. Special forms that can be used none
 - preprinted one-part multi-part
 - card stock other (describe)
- c. Paper dimensions (width, length)
 - maximum
 - usable

9. Print mode

- Character: () Ascii () Other
- Graphics Both char/graphics

10. Reliability of device

- Good Fair Poor

11. Maintenance required

- Heavy Medium Light

12. Recommended usage level

- Heavy Medium Light

13. Manufacturer information

- a. Manufacturer name
 - Contact person
 - Address
 - Telephone
- b. Delivery time
- c. Service Reliable Unreliable

B. Computer to which this device is interfaced

1. Computer name
2. Model
3. Type of architecture *
4. Operating system

C. Output device driver software

- Obtained from Stanford
- Written in-house
- Other (explain)

D. Separate interface hardware (if any) between host computer and output device (e.g. Z80)

1. Separate interface hardware not needed because:
 - Output device is run off-line
 - O/D contains user-programmable micro
 - Decided to drive O/D direct from host
2. Name of interface device (if more than one, specify for each)
3. Manufacturer information
 - a. Manufacturer name
 - Contact person
 - Address
 - Telephone
 - b. Delivery time
 - c. Purchase price
4. Modifications
 - Specified by Stanford
 - Designed/built in-house
 - Other (explain)
5. Software for interface device
 - Obtained from Stanford
 - Written in-house
 - Other (explain)

E. Fonts being used

- Computer Modern
- Fonts supplied by manufacturer
- Other (explain)

1. From whom were fonts obtained?

2. Are you using Metafont? Yes No

F. What are the strong points of your output device?

G. What are its drawbacks and how have you dealt with them?

H. Comments - overview of output device

* If your computer is "software compatible" with another type (e.g. Amdahl with IBM 370), indicate the type here.

TEX82 ORDER FORM

The latest official versions of TEX software and documents are available from Maria Code by special arrangement with the Computer Science Department of Stanford University.

Nine different tapes are available. The generic distribution tape contains the source of TEX82 and WEB, the test program, a few "change" files, the collection of fonts in TFM format, and other miscellaneous materials; a PASCAL compiler will be required to install programs from a generic tape. The AMS-TEX macro package is included on the TEX distribution tapes; other macro packages, including L^ATEX and HP TEX, will be added as they become available. The special distribution tapes are for the indicated systems only, and should be ordered for these systems instead of a generic tape. Two tapes are PXL font collections covering various magnifications at 200/240 dots/inch and 300 dots/inch respectively. The METAFONT tape contains the SAIL source for the METAFONT program and includes the .MF source files.

Each tape will be a separate 1200 foot reel which you may send in advance or purchase (for the tape media) at \$10.00 each. Should you send a tape, you will receive back a different tape. Tapes may be ordered in ASCII or EBCDIC characters. You may request densities of 6250, 1600 or 800 (800 is discouraged since it is more trouble to make).

The tape price of \$82.00 for the first tape and \$62.00 for each additional tape (ordered at the same time) covers the cost of duplication, order processing, domestic postage and some of the costs at Stanford University. Extra postage is required for first class or export.

Manuals are available at the approximate cost of duplication and mailing. Prices for manuals are subject to change as revisions and additions are made. It is assumed that one set of manuals will suffice you. If you require more than two sets, please write for prices since we must ask for more money for postage and handling.

Please send a check or money order (payable on a US bank) along with your order if possible. Your purchase order will be accepted, as long as you are able to make payment within 30 days of shipment. Please check this out before sending a purchase order since many large firms seem to be unable to make prompt payment (or don't worry about it).

The order form contains a place to record the name and address of the person who will actually use the TEX tapes. This should *not* be someone in the purchasing department.

Your order will be filled with the most recent versions of software and manuals available from Stanford at the time your order is received. If you are waiting for some future release, please indicate this. Orders are normally filled within a few days. There may be periods (like short vacations) when it will take longer. You will be notified of any serious delays. If you want to inquire about your order you may call Maria Code at (408) 735-8006 between 9:30 a.m. and 2:30 p.m. West Coast time.

If you have questions regarding the implementation of TEX or the like, you must take these to Stanford University or some other friendly TEX user.

Now, please complete the order form on the reverse side.

TEX82 ORDER FORM

**** TAPES **** density (6250, 1600 or 800) = _____

TEX generic distribution tapes (PASCAL compiler required):

_____ ASCII format _____ EBCDIC format

TEX distribution tapes in special formats:
